Here is the forecast for the United Kingdom for daytime tomorrow :  
Rather cloudy with some patchy rain then showers over eastern  
England. Cloudy with weakening band of rain spreading slowly  
southeast over northwest Scotland and Northern Ireland. Otherwise  
mostly dry with bright or sunny spells gradually developing after  
local overnight mist or fog patches clear from northern areas. Bright  
western places warm but rather cool near North Sea coasts.

Outlook for Saturday and Sunday:

Many places dry with sunny periods developing during both days,  
sheltered western areas most favoured. Becoming warm or very warm in  
the sun. Rather more cloud over southeastern areas with a few showers  
on Saturday. Patchy rain at times over northwestern Britain.
