

FPUK85 EGRR 010400
Forecast for the UK.
Issued by the Met Office
at 0400 on Friday 1 October 2004

** Valid for Broadcasts Between 0600 and 1200 **

Headline:

Rain moving east, but not reaching the southeast until tonight.

Today:

In the west, rain reaching Northern Ireland this morning and other areas this afternoon before turning showery. Further east, patchy fog lifting to leave some hazy sunshine before rain starts moving in later today.

Tonight:

Rain continuing to move east with clearer, showery weather following and most of the showers in western regions.

Outlook for Saturday:

Sunshine with blustery showers, especially towards the northwest.
