Here is the forecast for the United Kingdom until dawn tomorrow:
It's a cloudy start with some rain for England and Wales although this will clear to sunny spells making it feel warmer than yesterday. Scotland and Northern England should stay dry and fine, before rain arrives in the west moving eastwards overnight. Clear skies in the east will lead to some frost and fog pockets forming here.

Outlook for Monday and Tuesday:

Monday and Tuesday will often be rather cloudy with some sunny spells at times. The cloud may be thick enough to allow the odd spot of light rain or drizzle to form, particularly over the hills, but for all it will remain mild.
