

FPUK85 EGRR 030400  
Forecast for the UK.  
Issued by the Met Office  
at 0400 on Wednesday 3 November 2004

\*\* Valid for Broadcasts Between 0600 and 1200 \*\*

Headline:

Showery rain in places. Bright spells later. Widespread rain tonight.

Today:

Although many areas will be dry today, there will be patchy fog and showery rain in places this morning. More widespread rain will reach Northern Ireland, Western Scotland and southwest England later.

Tonight:

Cloud and rain for most parts tonight, but clear skies following into northern and western areas later.

Outlook for Thursday:

Rain in southeast clearing, sunny spells elsewhere. Showers in far north.
