

Forecast For The United Kingdom  
Issued by Met Office Exeter  
at 1945 on Saturday 03 Jul 2010

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:  
Windy across Northern Ireland and Scotland with southerly or southwesterly winds reaching gale force in places. It will also be rather wet, with heavy and persistent rain at first, although Northern Ireland may become dry during the afternoon. Wales and northern England will be breezy with occasional rain. Central, eastern and southeastern England should remain dry but become increasingly cloudy.

Outlook for Monday and Tuesday:

Southern and eastern England will remain dry with light winds but become rather cloudy at times. Elsewhere, scattered showers are likely on Monday but it becomes drier on Tuesday, with winds increasing in the west and northwest on Tuesday afternoon.
