

Forecast For The United Kingdom
Issued by Met Office Exeter
at 1945 on Wednesday 04 Feb 2009

++ Valid for broadcast at 2159

Here is the forecast for the United Kingdom for daytime tomorrow:
Much of Wales and central England will have further falls of sleet and snow, with several centimetres of fresh snow accumulating in places during the morning. Northern England, Northern Ireland and southern Scotland will also have occasional sleet and snow, although northern Scotland and western Northern Ireland will become drier and brighter. Southern England will have occasional rain or sleet.

Outlook for Friday and Saturday:

Friday, much of southern, central and eastern England will have further outbreaks of rain, sleet and snow, although drier and brighter conditions will follow from the northwest. Scotland and Northern Ireland will have snow showers. Saturday, sunshine and wintry showers.
