

**Yellow warning
Thunderstorm**

Between
20:00 Fri 23 Jul 2021 and
22:00 Sat 24 Jul 2021

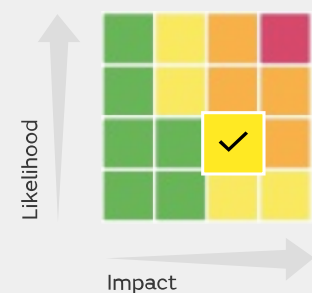

Although many areas will miss the worst, thunderstorms may lead to some disruption and flooding.

What to expect

- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- Flooding of homes and businesses could happen quickly, with damage to some buildings from floodwater, lightning strikes or hail
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- Power cuts might occur and other services to some homes and businesses could be lost

Further details

The thunderstorms which affected some southern areas overnight and earlier this morning have largely faded now but further slow-moving thunderstorms are likely to develop by Saturday afternoon across southern counties of England and perhaps southeast Wales, easing only slowly through the evening. Not all places affected but where they occur, a renewed threat of torrential rainfall and flooding, some locations seeing 30 to 50 mm within an hour or two. Lightning will be an additional hazard, while large hail and gusty winds could occur in a few places, more likely towards the east of the warning area.

✓ Low likelihood of medium impacts
