

FPUK85 EGRR 271600  
Forecast for the UK.  
Issued by the Met Office  
at 1600 on Thursday 27 January 2005

\*\* Valid for Broadcasts Between 1800 and 0600 \*\*

Headline:

Rain in east. Dry for most elsewhere, some sun. Breezy.

This Evening and Tonight:

Patchy rain in eastern areas may become extensive overnight, spreading westwards at times, while dying out over eastern Scotland. Mainly dry further west with some clear intervals. Touch of frost in north.

Friday:

Largely dry in the west with some bright or sunny intervals. Cloudier further east with patchy rain or drizzle, more persistent in eastern England.

Outlook for Saturday:

Less windy. Some rain in eastern/southeast England. Dry further west with sunny spells.
