Air Quality Forecast for the UK

Issued by the Met Office

Today: Low levels of air pollution are expected across the UK, although locally elevated levels are possible across southern England where the winds are lightest and also where some patchy fog may linger.

Tomorrow: Low levels of air pollution are expected to continue across the UK through Sunday, with the wind gradually strengthening for most areas.

Outlook: Unsettled, and initially windy, weather conditions across the UK will maintain Low levels of air pollution for all areas.
