

FPUK85 EGRR 021600
Forecast for the UK.
Issued by the Met Office
at 1600 on Tuesday 2 August 2005

** Valid for Broadcasts Between 1800 and 0600 **

Headline:

Showery rain moving across Wales/England. Showers further north. Dry southeast.

This Evening and Tonight:

Showery rain moving southeastwards across Wales and all but southeast England overnight. Quite frequent showers continuing over western Scotland, but mostly dry elsewhere.

Wednesday:

Showery rain clearing from southeast England around lunchtime. Otherwise, sunny spells and showers, most frequent over western Scotland, driest over southwest England.

Outlook for Thursday:

Mostly dry for Wales and southern England. Elsewhere some showers, more frequent across west Scotland.
