Here is the forecast for the United Kingdom for daytime tomorrow:  
Scotland and Northern Ireland will have a brighter day, with a few isolated showers and some sunny spells. England and Wales will see some scattered showers which could be heavy, especially in the southeast. This could lead to localised downpours and come with a risk of thunder too.

Outlook for Tuesday and Wednesday:  
The middle of the week will be rather changeable with a mixture of sunshine and showers. The showers on Tuesday will be fairly widespread and could be heavy in southern parts. Wednesday looks to be drier and brighter with some good spells of sunshine.
